1. The Declaration filed on 6/23/05 under 37 CFR 1.131 is sufficient to overcome the Soman et al. reference.

Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance:

With the removal of Soman et al. reference as prior art, the claims are allowed over prior art of record because the prior art does not teach or suggest the claimed subject matter which includes the process steps regarding the formation of the blanket seed layer at a first temperature followed by the formation of a silicon-germanium layer and a silicon cap at a second temperature. Although the first temperature and the second temperature are not necessarily different, the deposition temperature for forming the silicon-germanium layer and the silicon cap layer is the same because they are both formed at the second temperature.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Trung Dang whose telephone number is 571-272-1857. The examiner can normally be reached on Mon-Friday 9:30am-6:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Matthew Smith can be reached on 571-272-1907. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
